From: Andrey Alekseev – Terminal Manager, AAT Appleton Dock

Subject: Terminal Storage over Christmas/New Year Period, 2026

Christmas Steel Warehouse Closure

With the rapidly approaching Christmas/New Year holiday period along with the usual steel warehouse and business closures over this period, importers are urged to make arrangements to move cargo off wharf during this period asap.

To assist during this period AAT is heavily discounting storage for steel from beyond the normal 3 days free storage, from $8.28 to $2.10 per revenue tonne per day from Monday 21/12/2026 until Friday 08/01/2026. After this, published storage rate will be applied.

Subject to demand, AAT is unable to guarantee availability of undercover storage for weather sensitive cargo at our terminal.

AAT will work with the stevedores to maximise the available capacity and ensure efficient use of all undercover storage facilities.

To assist handling of the large cargo volumes through our Appleton Dock facility, extended hours and weekend deliveries are available by arrangement.

AAT R&D will be open during normal business hours over the holiday period.

Kind Regards,

Andrey Alekseev
